

Australian Professional Thermography Association Inc.

Formed in 2011, AUSPTA's mission is to:

- Enhance and promote the application of Thermography across a wide range of Industry User Groups throughout Australia.
- Develop and maintain a register of Professional Thermographers.
- Support training in all aspects of Thermography and develop Continuing Professional Development (CPD) initiatives for members to enhance their skills.
- Provide a forum for members to discuss all topics in relation to Thermography.

BUSINESS PROMOTION OPPORTUNITY

To address an audience of Thermography Industry Professionals!

As the leading specialist Association of its type in Australia, we continue to experience strong growth in memberships from all over Australia. Thermographers work in various industry sectors:

All types of building environments	Electrical, HV supply & distribution, LV installations	Industrial, Mining, Marine, Mechanical, Aviation	Pest Control, Veterinary, Medical, Surveillance
---	---	---	--

We are uniquely placed to offer exclusive opportunities to market and promote your business to our members
